

Collapsed Rescue Operations Course

Designed to provide participants with the operational knowledge, skills, and abilities to perform rescue at structural collapse scenes due to natural disasters or human forces. This is an intense 50 hour course, five days in length, 10-hours of instruction each day.

❑ This course meets and exceeds NFPA 1670 for Structural Collapse Operations.

❑ In addition, this course completes the requirements for structural collapse technician NFPA 1006 when combined with the ICS prerequisites and knowledge, skills, and abilities in search of collapse structures, heavy rigging, and pre hospital EMS skills.
